- **Google IT Support Professional Certificate** | Coursera (Issued: Oct 2025)
- **Network Technician Career Path** | Cisco (Completed: Oct 2025)
- **CompTIA A+ Network** | Coursera course (Completed: Oct 2024)

PROFESSIONAL EXPERIENCE

Support Analyst I (Tier 1)
Premium Care Solutions Philippines Inc. (Client: Klik Solutions LLC) | Roxas City · Remote
February 2026 – Present

- Serve as first point of contact for MSP clients, handling inbound calls, emails, and voicemails and triaging incidents and service requests in Autotask PSA.
- Troubleshoot and resolve Tier 1 issues on first contact using remote support tools and Datto RMM, covering Windows and macOS endpoints, connectivity, and business applications.
- Support Microsoft 365 administration tasks, including user onboarding and offboarding, license assignment, group management, and shared mailboxes.
- Escalate issues beyond Tier 1 scope to NOC, SOC, and Engineering teams following documented procedures, with clear handoffs and timely customer updates within SLA.
- Document troubleshooting steps and resolutions in Autotask and ITGlue, and take part in the on-call support rotation.

IT Support
Rubixcare Ltd. | London, United Kingdom | Remote
March 2025 – August 2025

- Managed the complete user lifecycle in the Google Admin Console and conducted regular security audits of Google Drive to enforce data protection policies.
- Performed scheduled maintenance, security updates, and automated full backups of company web platforms, ensuring optimal uptime and data integrity.
- Handled network connectivity diagnostics and application troubleshooting to minimize operational downtime for a remote workforce.
- Participated in strategic planning sessions to implement process improvements and evaluate new software solutions (e.g., RotaCloud) to enhance team efficiency.

IT Support Specialist
Nearsol Philippines Inc. | Iloilo Business Park, Mandurriao, Iloilo City
April 2022 – September 2024

- Configured, deployed, and maintained Windows Servers, Active Directory/Azure AD, Fortinet Firewalls, and Cisco routing and switching devices for a large-scale business operation.
- Supported over 200 monthly infrastructure and user requests via Freshdesk, maintaining strict 90% SLA compliance for mission-critical systems.
- Led IT asset procurement and vendor negotiations, strategically reducing infrastructure costs while optimizing technology acquisitions.

IT Admin / Support
World Source Pettigrew Philippines Inc. | General Luna Street, Iloilo City
December 2019 – February 2021

- Architected and maintained Windows Terminal Servers, Active Directory, and physical security (CCTV) systems.
- Configured and maintained SonicWall Firewalls and enforced security compliance across the local network infrastructure.
- Monitored optimal performance of newly deployed Windows server environments through regular health checks and configuration tuning.

IT Intern
PLDT Site Office – La Paz Branch | Iloilo City
November 2018 – March 2019

- Assisted enterprise engineers in structured cabling, network hardware testing, and infrastructure troubleshooting.

EDUCATION

Bachelor of Science in Information Technology
University of San Agustin, Iloilo | 2014 – 2018
