- Google IT Support Professional Certificate
- Google Cybersecurity Professional Certificate
- CompTIA a+ Network
- Microsoft Azure Fundamentals (Exam Prep)
- CCNA (Self-Study)
- ITIL v4 Foundation (Self-Study)

Professional Experience

IT Support

Rubixcare Ltd. | London, United Kingdom | Remote

March 2025 – August 2025

- Led the technical execution of a full company rebranding, which included setting up a new email domain and reconstructing the email address infrastructure.
- Managed the end-to-end migration and redesign of the corporate website using WordPress, including moving from the old domain to the new one.

- Configured and managed DNS records and implemented SSL certificates to secure the new domain and enforce HTTPS.
- Designed and deployed new, standardized email signatures across the organization to align with the rebranding.
- Serve as the primary point of contact for technical support, resolving staff issues related to network connectivity, website access, and software problems.

IT Support Specialist

Nearsol Philippines Inc. | Iloilo Business Park, Mandurriao, Iloilo City

April 2022 - September 2024

- Spearheaded the migration of the local Active Directory to Azure Entra ID, unifying user management across sites in Guatemala, Manila, and Iloilo.
- Managed and maintained the local network infrastructure, including hands-on experience with network optimization projects.
- Installed, configured, and maintained network devices, including Cisco and Fortinet hardware.
- Managed 200+ support tickets per month using Freshdesk, ensuring 95% SLA compliance.

IT Admin/Support

World Source Pettigrew Philippines Inc. | General Luna Street, Iloilo City

December 2019 - February 2021

- Managed a multi-site environment with 3 terminal servers (Windows Server 2008 R2) and administered Active Directory across Manila, Iloilo, and US locations.
- Proactively initiated and proposed a critical project to upgrade Windows Server 2008 R2 to a newer version (2016/2019), highlighting the security risks of end-of-support to management.
- Managed and maintained the company's CCTV system, including troubleshooting and maintenance.
- Conducted vulnerability assessments and security risk analysis, strengthening the IT security posture.

IT Intern

PLDT Site Office - La Paz Branch, Iloilo City

November 2018 - March 2019

- Assisted in network cable testing, system upgrades, and troubleshooting IT infrastructure.
- Developed familiarity with networking hardware, telecommunications, and structured cabling.

Education

Bachelor of Science in Information Technology

University of San Agustin, Iloilo | 2014-2018
